

# Amateur Foot Selfie Models

In order to maximize your chance of being accepted please consider following these guidelines listed below.

- All models must be at least 18 years old
- We are looking for more natural feet so you don't need to prep for your photos.
- If your feet are dirty leave them, that's considered natural.
- If you have no nail polish that is great that's fine by us.
- If they are painted and the polish is chipping or fading Great, that's actually a plus.
- If they are nicely painted that's wonderful too we like a little variety every now and then.
- The only natural feature frowned on here is naturally long toenails. This is considered an abhorrence here and would not even be considered.
- If we can clearly see your toes and also a shot of the soles of your feet, you would definitely be a strong candidate for being selected.

Please send pics your first name if you don't mind, or a created name of your choice so that we can identify you. All models have the option of remaining anonymous, however some people are very proud of their beautiful feet and don't mind the world knowing their name or seeing their face and or full body shot. After all there is no nudity here and all of the photos are your own personally submitted photos unless otherwise stated, so you are always in control of the content. If you opt to show your face and or use your real name. We will require you to sign a model waiver for in order for us to use our submitted photos electronically or in printed media.

## Requirements

1. Your name and or character name.
2. An email contact
3. A brief message about you or our feet
4. And of course the photos

Thank you for considering us and also thank you for your support.
